WHAT DOES VQB5 MEASURE?

Virginia's Quality Birth to Five System (VQB5) evaluates early learning programs through classroom observations of teacher-child interactions and the use of state-approved curriculum. Together, these measures reflect the quality of learning experiences children receive every day.

Meaningful Teacher-Child Interactions

How teachers build positive relationships, create supportive classrooms, and encourage learning through engaging conversations, exploration, and play.

Quality Curriculum

The use of state-approved curriculum designed to support children's development, inspire curiosity, and build a strong foundation for future learning.

OUR COMMITMENT TO EVERY CHILD

These results reflect what we believe in at LLE Education Group: **Learning in a Loving Environment**, where meaningful interactions, nurturing relationships, and quality education build a strong foundation for every child's future.
